MATCHING FUN

My Pair of Gloves – Matching Fun!

Our little learners enjoyed a super fun and engaging matching activity today!

Each child had to find and match their correct pair of gloves with their name on it. The excitement on their faces when they found the right pair was priceless! Through this activity, children strengthened their name recognition skills, improved their observation power, and understood the concept of matching pairs in a playful way. Learning becomes magical when little hands explore and little minds think!

DELHI PUBLIC SCHOOL, SECTOR-84 GURUGRAM

MATCHING FUN

SCIENCE EXPERIMENT

Our tiny learners stepped into the world of discovery with a fun and exciting Science Experiment! With curious eyes and eager hands, they observed, explored, and learned something new in the most joyful way.

Through simple experiments, children understood basic concepts while developing observation skills, critical thinking, and a love for learning.

It was wonderful to see their excitement as they predicted outcomes and watched the magic of science unfold!

Learning truly becomes meaningful when curiosity leads the way!

SCIENCE EXPERIMENT

DELHI PUBLIC SCHOOL, SECTOR-84 GURUGRAM

COLOURING COMPETITON

Our little artists participated enthusiastically in a fun-filled Colouring Competition! With bright crayons and big smiles, children beautifully filled colours in their worksheets, showing creativity and neatness. This activity helped enhance their fine motor skills, colour recognition, and concentration. It was wonderful to see their imagination come alive through colours. We are so proud of our tiny artists!

COLOURING COMPETITION

DELHI PUBLIC SCHOOL, SECTOR-84 GURUGRAM

SIGHT WORDS ACTIVITY

Today our little learners had an exciting time learning the sight word 'it'.

We made learning playful with a "Spot it & Speak it" tray activity.

Different objects were kept in the tray and children had to spot an item and make a sentence using 'it'.

It is a pencil.

It is a ball.

It is a book.

This hands-on activity boosted the children's confidence in sentence formation while they had loads of fun!

SIGHT WORDS ACTIVITY

DELHI PUBLIC SCHOOL, SECTOR-84 GURUGRAM

AIM THE LETTER

Our little learners enjoyed an exciting activity “Aim the Letter” where they threw a bean bag and aimed at a particular letter. 🎯
Once the bean bag landed, children guessed the letter and proudly named it! This playful activity helped them recognize letters, improve focus, and build confidence in a fun way. 📖

Learning became full of excitement, movement, and laughter as our tiny tots explored alphabets through play!

AIM THE LETTER

TRANSPORT CORNER

Our little explorers had a joyful learning experience at the Transport Corner! Through fun activities, colorful models, and interactive discussions, children discovered different modes of transport – land, air, and water.

From recognizing vehicles to sharing their own experiences, our young learners built confidence, enhanced vocabulary, and developed curiosity about the world around them.

Hands-on learning made the concept more meaningful and exciting, turning every moment into a journey of discovery!

TRANSPORT CORNER

DELHI PUBLIC SCHOOL, SECTOR-84 GURUGRAM

TRANSPORT CORNER

MOVIE TIME

Our little learners enjoyed a wonderful outdoor trip to watch Zootopia 2 on the big screen. The excitement and laughter made the day extra special!

To add more fun, children enjoyed yummy popcorn and juice as refreshments during the movie. Their happy faces and cheerful vibes made it a memorable experience for everyone.

It was a day full of fun, bonding, and beautiful memories!

ASSEMBLY

Today our little learners confidently presented lines on the National Flowers of Different Countries.

They shared about:

India – Lotus

Pakistan – Jasmine

Netherlands – Tulip

Italy – Lily

United States – Rose

Our tiny stars spoke their lines with confidence and bright smiles. Through this activity, children learned about different countries and their national symbols, building early global awareness in a fun and meaningful way. We are so proud of our little blossoms for making the assembly colourful and informative!

WILD LIFE DAY POEM RECITATION

**'If we save our wild places and animals, we will ultimately save ourselves*.'*

World Wildlife Day is an opportunity to celebrate the many beautiful and varied forms of wild fauna and flora, to raise awareness of their many benefits to remind us of the urgent need to step up the fight against wildlife crime and human-induced reduction of species, which have wide-ranging economic and environmental impacts.

Today children of class- Prep celebrated World Wildlife Day by reciting poems and by drawing pictures. In this way, they learnt about many new things related to wildlife.

WILD LIFE DAY POEM RECITATION

DELHI PUBLIC SCHOOL, SECTOR-84 GURUGRAM

POTLUCK

A potluck is a fun activity where everyone brings a dish to share with others. In Prep grade, we celebrated 'Potluck Day' by bringing different kinds of food from our homes. Some children brought fruits, some brought snacks, and others brought sweets. Children sat together and enjoyed eating and sharing their food with friends and teachers.

POTLUCK

DELHI PUBLIC SCHOOL, SECTOR-84 GURUGRAM

POTLUCK

DELHI PUBLIC SCHOOL, SECTOR-84 GURUGRAM

ROTATION AND REVOLUTION

Teaching kids about Earth's rotation (spinning on its axis) and revolution (orbiting the Sun) is essential for understanding daily and seasonal cycles. It explains why we have day and night, changing temperatures, changing seasons and fostering a foundational understanding of earth science.

Interesting activities were organized for the children of Prep this week to help them understand how rotation and revolution take place and what causes them. Children enjoyed doing these activities which promise a lasting impact on their understanding.

ROTATION AND REVOLUTION

PRIMARY AND SECONDARY COLOURS

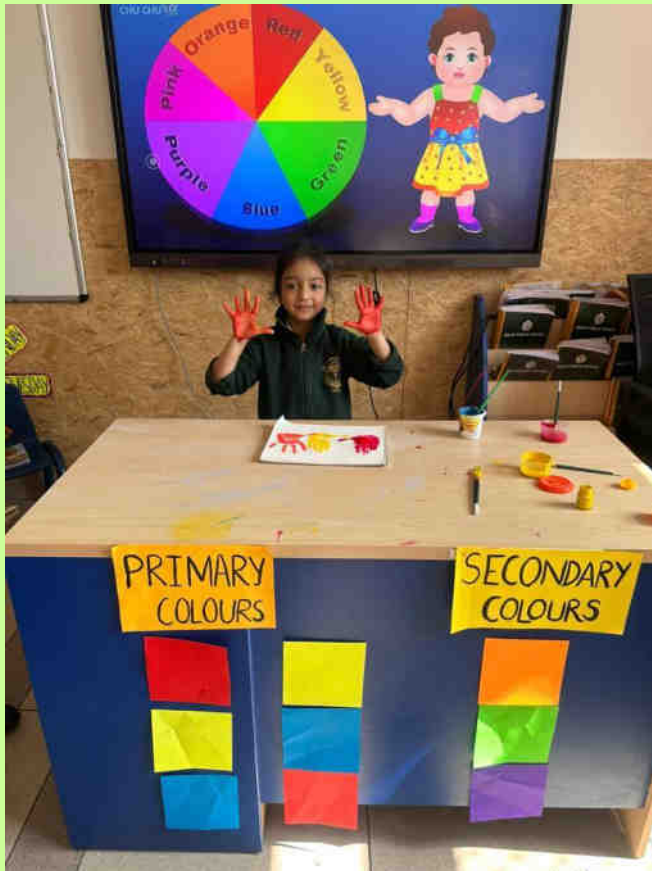

Activities involving primary and secondary colors are foundational for teaching color theory, helping learners understand that certain colors cannot be created by mixing (primary) while others are derived from combinations of them (secondary). Children of grade Prep today participated in this activity enthusiastically and enjoyed exploring the making of a secondary color by mixing two primary colors.

PRIMARY AND SECONDARY COLOURS

DELHI PUBLIC SCHOOL, SECTOR-84 GURUGRAM

POSITION WORDS

Our little learners recently embarked on a "Water Bottle Scavenger Hunt" to master position words. With chairs arranged in various configurations, students placed water bottles in different positions - on, under, beside, in between, behind, in front of, near, and far.

Objective: To understand and apply position words in a fun, interactive way.

Activity: Students placed water bottles in various positions relative to chairs, using words like:

- On
- Under
- Beside
- In between
- Behind
- In front of
- Near
- Far

Procedure:

1. Setting up of chairs in different arrangements.
2. Position words were called out and placed water bottles accordingly.

Outcome: Students grasped position words, that strengthened their vocabulary and spatial awareness, and enjoyed hands-on learning

POSITION WORDS

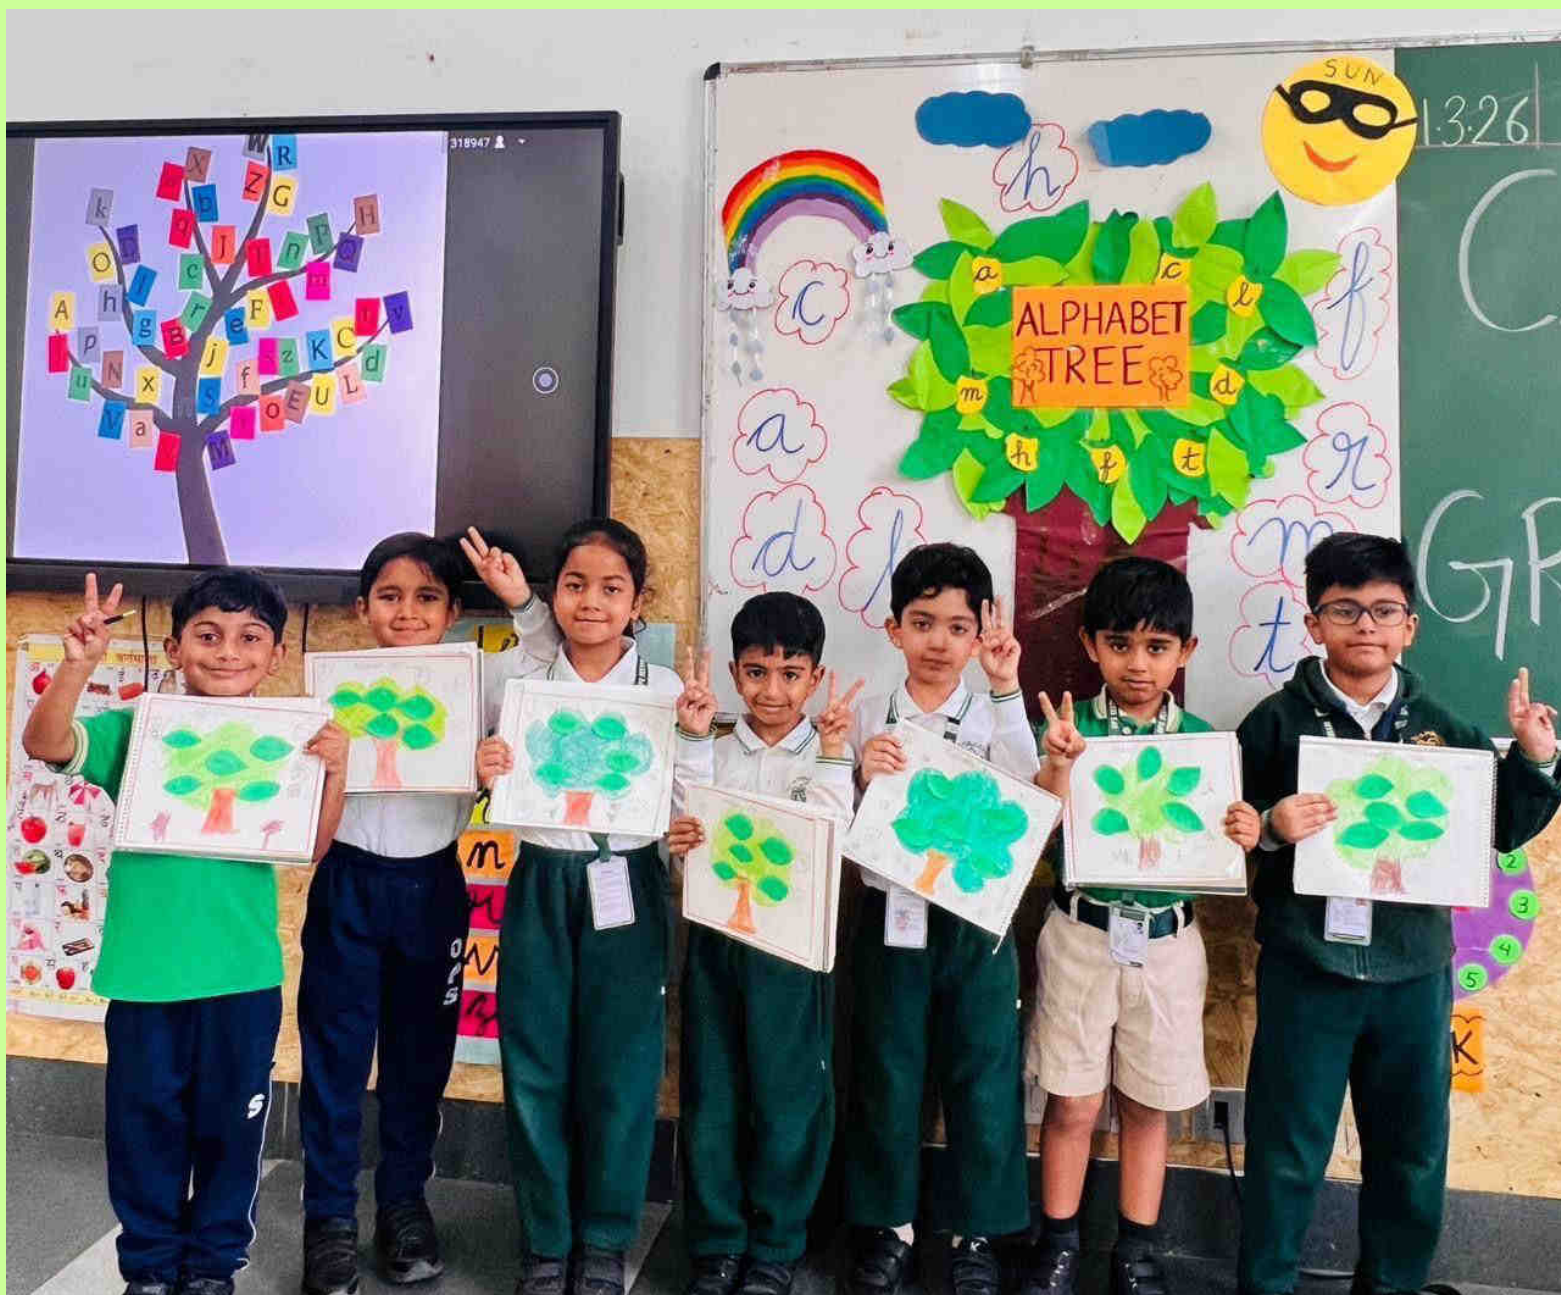

ALPHABET TREE

Our little stars at DPS Sector 84, Gurgaon, are blooming bright! The KG students had a fruitful experience creating their own Alphabet Trees, learning and growing with every leaf. As they nurtured their creativity, they discovered the magic of words and letters. 'The alphabet is the key to learning, and creativity is the door to discovery.'

DELHI PUBLIC SCHOOL, SECTOR-84 GURUGRAM

TIME

Our little linguists at DPS Sector 84, Gurgaon, are mastering the art of blending sounds!

The KG students explored the concept of दो अक्षरों का जोड़, developing their reading skills with fun-filled activities. "Language is the bridge to imagination" - we're proud of their progress!

DELHI PUBLIC SCHOOL, SECTOR-84 GURUGRAM

ADDITION FACT ACTIVITY

The 'Addition Fact Flower' activity was conducted to help students learn and understand addition facts in a fun and creative way. Each child pasted flowers in their notebooks, then they wrote a number in the center of the flower. The number written in the center of the flower was the total (sum). The students had to write different addition pairs on the petals that made the same number.

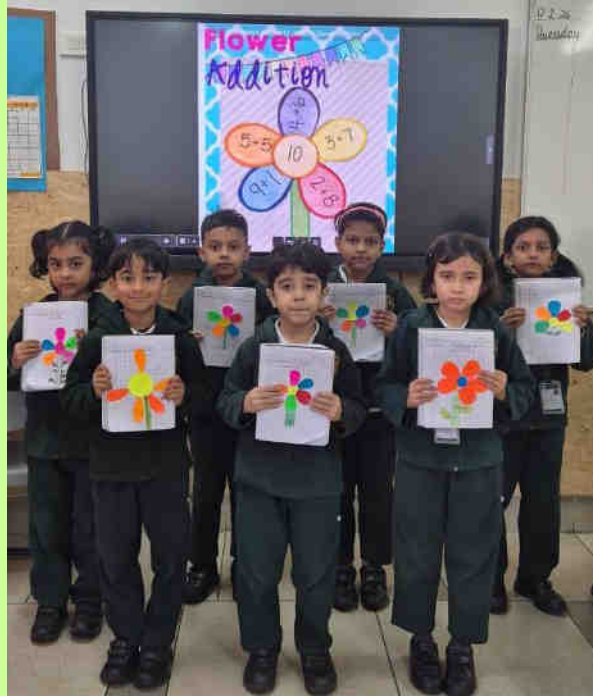

This activity helped students practice addition facts, improve their thinking skills, and understand that different number combinations can give the same answer. The children enjoyed coloring and decorating their flowers while learning. It made learning addition easy and interesting.

TYPES OF POLLUTION

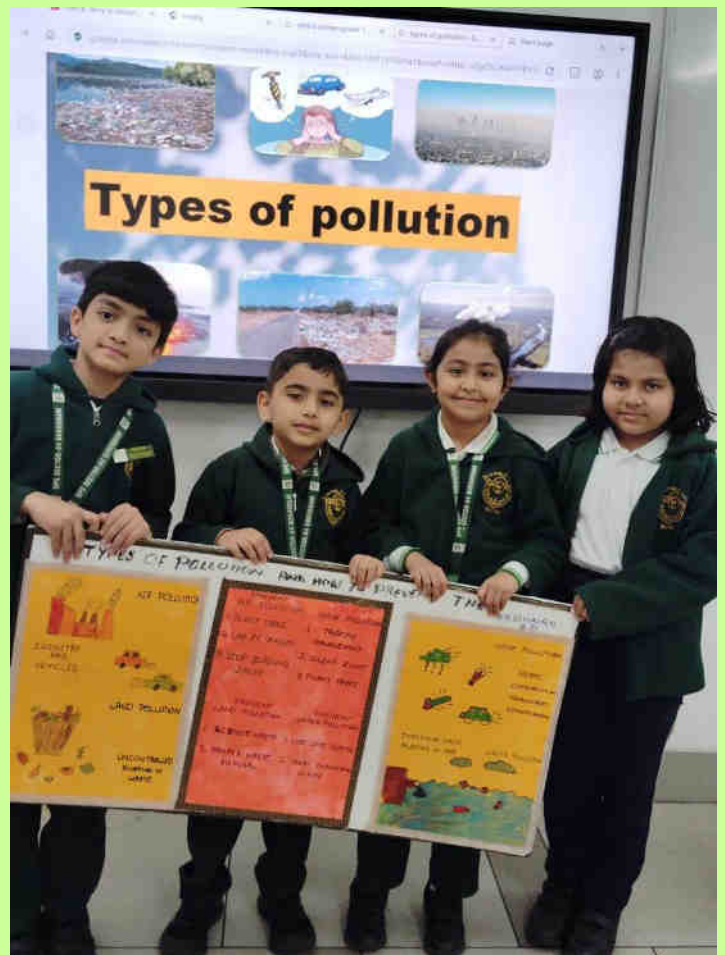

Types of Pollution

Students actively participated in a meaningful 'Show and Tell' activity to learn about different types of pollution. Each child confidently presented charts, models, and creative props to explain air pollution, water pollution, land pollution, and noise pollution.

Through their presentations, students shared the causes and effects of pollution and suggested simple ways to reduce it, such as planting trees, saving water, reducing plastic use, and keeping surroundings clean. The activity encouraged them to speak clearly, express their ideas, and build awareness about protecting the environment.

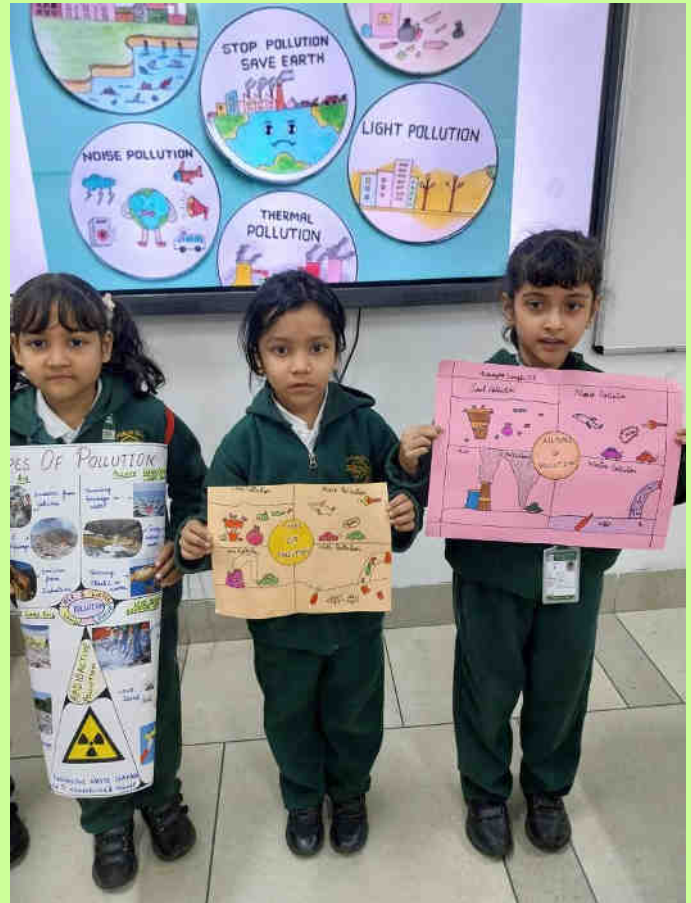

This interactive session not only enhanced their knowledge but also helped them develop confidence, communication skills, and a sense of responsibility towards keeping our Earth clean and healthy.

GREEN WARRIORS RALLY

Our grade 3 students demonstrated enthusiastic engagement during their participation in the Green Warriors Rally. They actively took part in this environmental advocacy event, where they collectively chanted a series of impactful slogans aimed at promoting vital ecological initiatives. Among the phrases echoed throughout the rally were compelling calls to action such as “Plant Trees for a Greener Tomorrow,” “Save Water, Save Trees,” and “Keep Our Planet Clean: Don’t Litter.” These slogans not only emphasized the importance of tree planting as a fundamental aspect of sustaining our environment but also highlighted the critical need for water conservation and responsible waste management. Through their spirited expressions and unified voices, the students showcased a strong commitment to fostering environmental awareness and stewardship within their school community.

TANGRAM ACTIVITY

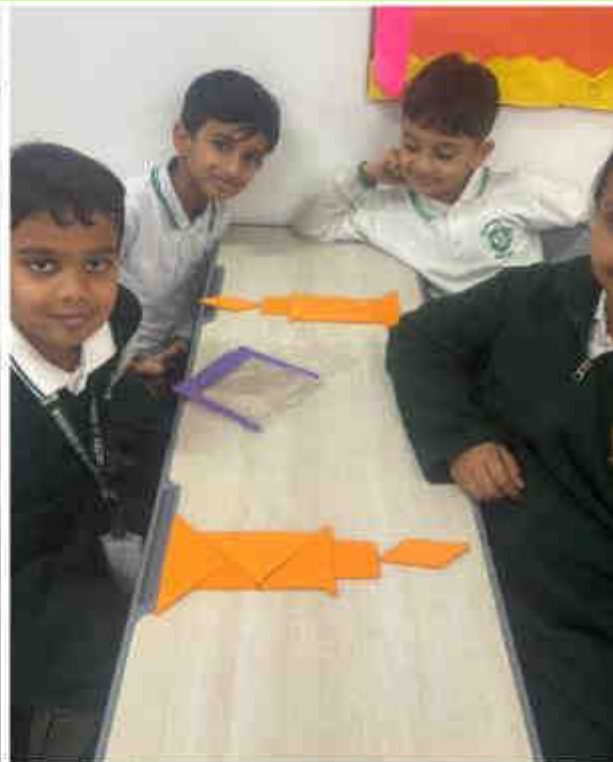

"Learning becomes meaningful when hands are busy creating and minds are busy thinking."

A Tangram activity was conducted in Class 3 to promote creativity, spatial understanding, and hands-on learning in mathematics. The activity began with a PPT presentation, where students were introduced to tangram shapes and the different figures that can be formed using them. Demonstrations were given by creating various figures using magnetic tans, which helped students visualize shape arrangements clearly. Thereafter, students used the seven tans to create their own imaginative images, encouraging creativity and logical thinking. To make the activity more engaging, students prepared their own tangram kits using origami sheets, carefully cutting and assembling the seven pieces. Finally, they pasted their tans in their notebooks to form unique pictures and designs. The activity enhanced students' understanding of shapes and symmetry while developing fine motor skills, imagination, and learning through exploration and fun.

TANGRAM ACTIVITY

MORNING ASSEMBLY- FRIENDSHIP

“Friendship is the only cement that will ever hold the world together.” – Woodrow Wilson. True to this quote, the third graders are learning the importance and value of friendship, as they are preparing for their journey ahead in Grade IV. A short and meaningful speech highlighted the importance of trust, kindness, and support in friendships. The students also reflected on the inspiring words of Helen Keller, which emphasized that friendship gives us strength even in difficult times. The assembly concluded with a pledge to be caring, helpful, and inclusive friends. The message of love and unity left a positive impact on all present.

DELHI PUBLIC SCHOOL, SECTOR-84 GURUGRAM

SUDOKU

"The best way to make young minds sharper is to let them learn through puzzles and play."

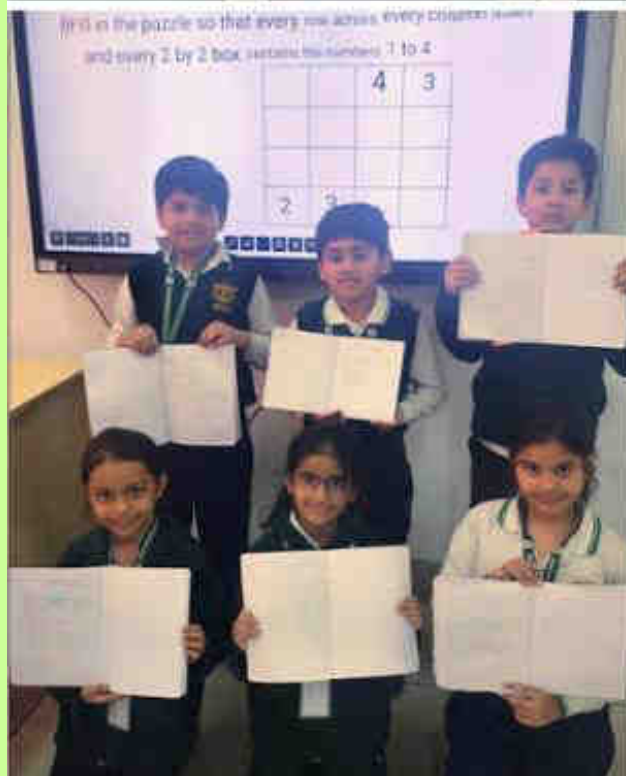

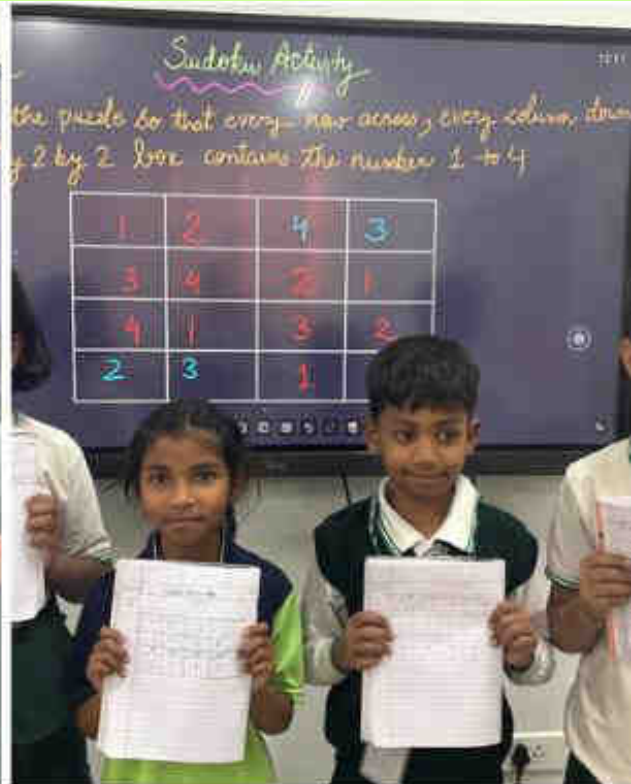

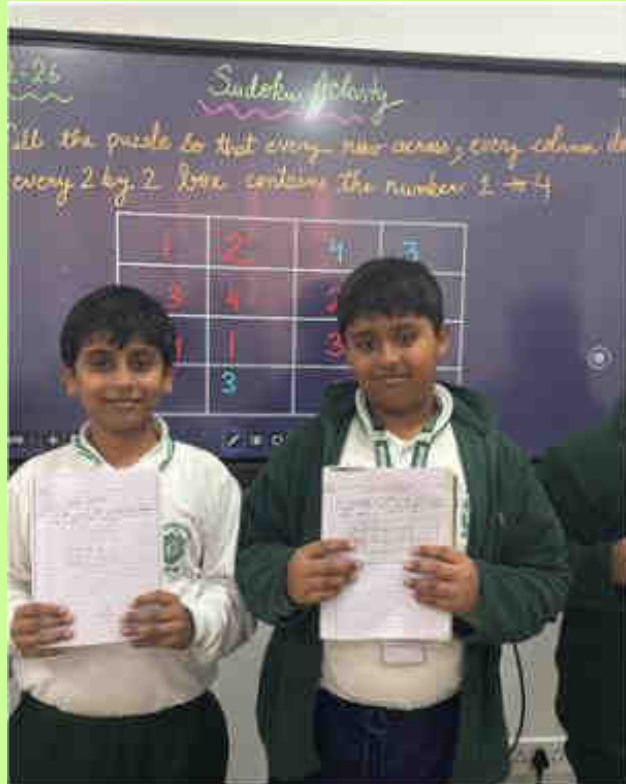

A Sudoku activity was conducted in Class 3rd and 4th to develop students' logical reasoning, problem-solving abilities, and concentration skills through enjoyable mathematical challenges. In the first Sudoku, students filled the puzzle so that every row across, every column down, and each 2×2 box contained the numbers 1 to 4, helping them understand number placement and patterns. The second Sudoku required students to use numbers 1 to 9 in a 3×3 square in such a way that every row, every column, and both diagonals gave a sum of 15, encouraging mental calculation and critical thinking. In the third Sudoku, students filled in the missing numbers in a 9×9 square, applying standard Sudoku rules and enhancing their focus and analytical skills. The activity created an engaging learning environment where students learned mathematics through fun, teamwork, and logical exploration, making the classroom experience both meaningful and enjoyable.

PYRAMID POWER: BUILDING MATH SKILLS WITH ADDITION PYRAMIDS

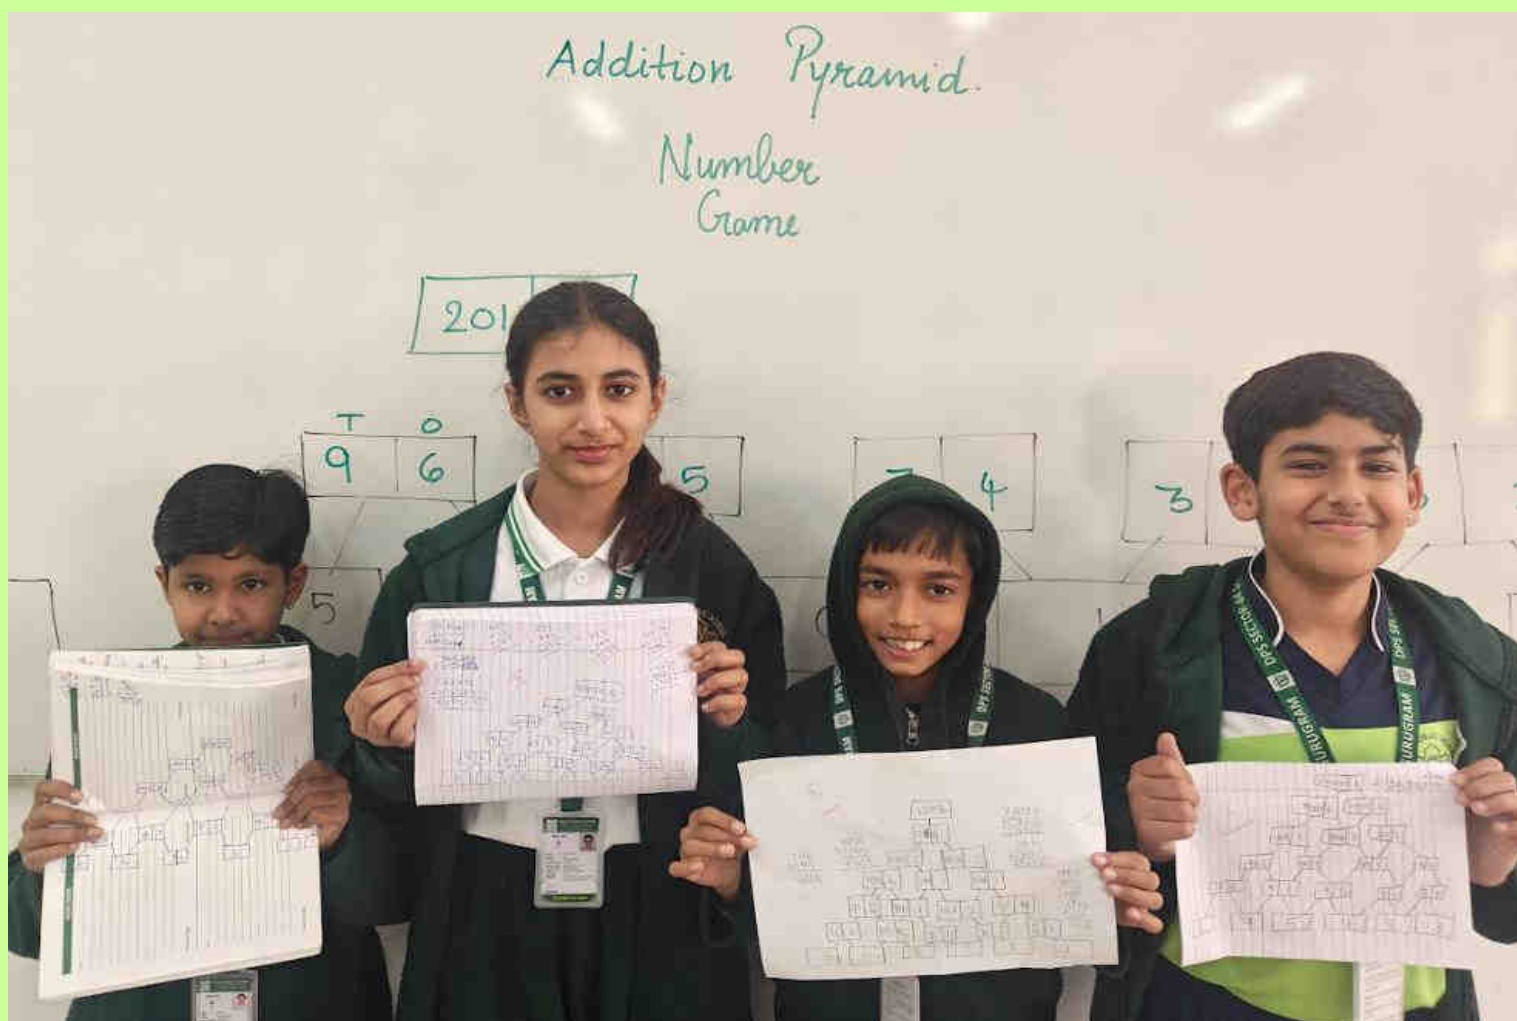

The Math Club conducted an exciting and interactive activity on the Addition Pyramid, where students explored numbers in a fun and creative way. An addition pyramid is a number puzzle in which each block is the sum of the two blocks directly below it.

During the session, students were given partially filled pyramids and challenged to complete them using logical thinking and basic addition skills. They also created their own pyramids, experimenting with different numbers to form unique patterns and solutions.

The activity encouraged teamwork, critical thinking, and problem-solving abilities. Students actively participated with great enthusiasm, discussing strategies and helping each other solve the puzzles.

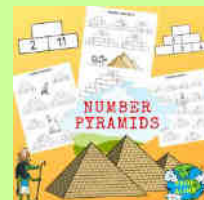

Overall, the addition pyramid activity made learning mathematics enjoyable and engaging. It helped students strengthen their numerical skills while discovering the joy of patterns and logical reasoning in a playful environment.

SYMMETRY IN NUMBERS: MATH CLUB DISCOVERS PALINDROMES

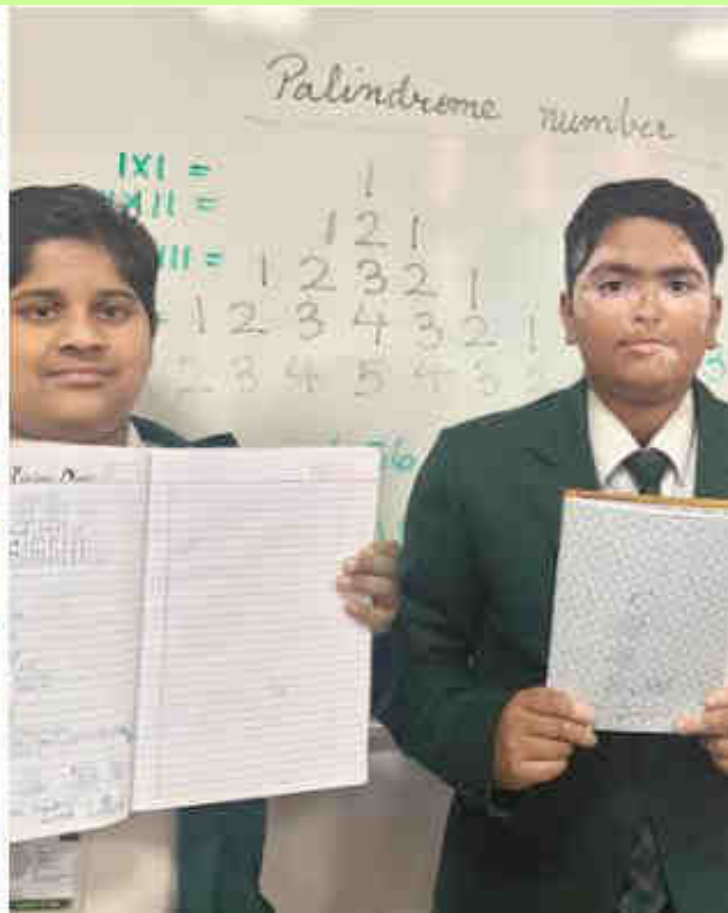

The Math Club organized an engaging activity on Palindrome Number, sparking curiosity and excitement among students. A palindrome number is one that remains unchanged when its digits are reversed, such as 121, 343, and 1331.

During the session, students explored the concept through interactive tasks and group discussions. They identified palindrome numbers, created their own examples, and experimented with numbers to discover interesting patterns. Special attention was given to palindromic dates and real-life examples, helping students connect mathematics with everyday life.

The activity encouraged learners to think critically and recognize patterns, enhancing their analytical and problem-solving skills. Students actively participated with enthusiasm, making the session both enjoyable and educational.

Overall, the Math Club activity successfully highlighted the beauty of numbers and fostered a deeper interest in mathematics among students.

SPEAK FOR SOMEONE – EMPATHY SPEECH

The students of Class 7 participated in an enriching and thought-provoking class activity titled “Speak for Someone – Empathy Speech.” The objective of this activity was to help learners step into another person’s shoes, understand diverse perspectives, and express compassion through spoken expression. Students choose a person, character, or group whose voice often goes unheard— They were given the chits to be picked related to different situations. They then prepared a short speech speaking on behalf of that individual, expressing their emotions, needs, and experiences. The classroom atmosphere was filled with empathy and thoughtful reflection as students delivered heartfelt speeches. They spoke passionately about: Children facing bullying, Friends who feel left out, A person of different culture finds it difficult to adjust, A person who met with an accident and lost his leg, a child who does not score well etc.

TRIBUTE TO SAROJINI NAIDU

The morning assembly was conducted with great enthusiasm, where students paid a heartfelt tribute to Sarojini Naidu, the “Nightingale of India.”

The assembly began with a brief introduction to her life. Born on 13th February 1879 in Hyderabad, Sarojini Naidu was not only a renowned poet but also a fearless freedom fighter. Her beautiful poems and inspiring speeches earned her a special place in the hearts of people.

Students highlighted her significant role in India’s freedom struggle and her close association with Mahatma Gandhi. It was also shared that she became the first woman President of the Indian National Congress in 1925 and later the first woman Governor of Uttar Pradesh.

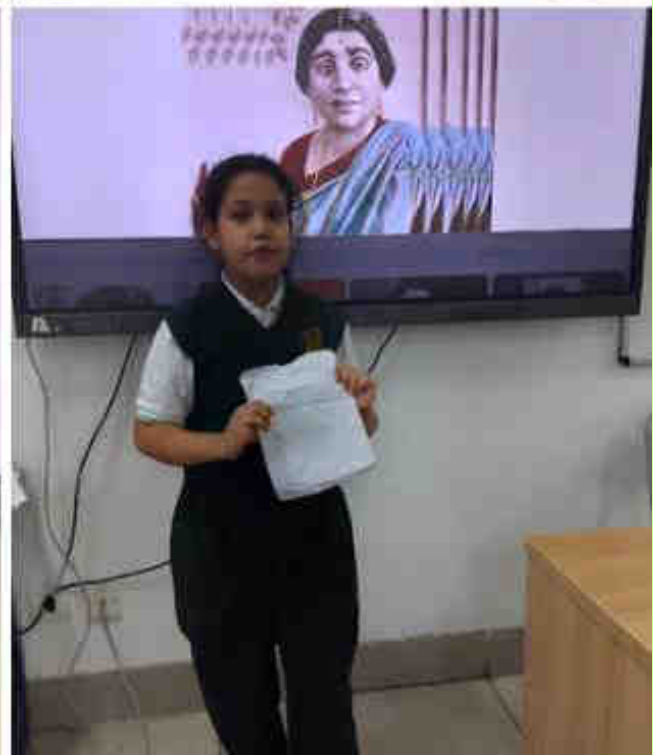

The speaker emphasized her qualities of courage, leadership, and dedication to the nation. The assembly concluded with a message encouraging everyone to follow her ideals and contribute positively to society.

The presentation was informative and inspiring, leaving the audience motivated and proud of India’s rich history.
